

Tough Technology Products Limited

PRODUCT SAFETY DATA SHEET

(according to Regulation (EC) No. 453/2010)

1. Identification of the substance/mixture & of the company/undertaking

1.1 Product Identifier

Trade Name : CUT-IT

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Substance/Mixture : Metal Working Compound

Recommended restrictions on use : At this time we do not have information on restrictions. They will be included when available.

1.3 Details of the supplier of the safety data sheet

Company : Tough Technology Products Limited, 5 Brooklands Place, Brooklands Road, sale, Cheshire M33 3SD
Tel: 0044 800 772 0996

1.4 Emergency telephone number

Emergency phone number : (Office hours only): 0044 800 772 0996

2. Hazards Identification.

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008

Hazard Class	Hazard Category	Hazard Statements
None	None	None

Classification according to EU Directive 1999/45/EC

Refer to Section 16.

2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008

Hazard Symbols: None Signal word: None Hazard Statements: None

Precautionary Statements:

General:

P102 Keep out of reach of children (Recommended for consumer products only)

Prevention:

P262 Do not get in eyes, on skin or on clothing

Labelling according to EU Directive 1999/45/EC

Refer to Section 16.

2.3 Other hazards

No other information is available

3. Composition/Information on Ingredients.

3.2 Mixtures

Contains no substances classified as hazardous under EU legislation

4. First Aid Measures.

4.1 Description of first aid measures

Eye Contact: Flush with plenty of clean water for at least 15 minutes. If irritation persists obtain medical attention.

Skin Contact: Wash off with water. The application of skin reconditioning (emollient) cream can be beneficial.

Inhalation: Remove to fresh air. If symptoms persist, seek medical advice.

Ingestion: Milk or water to drink may be beneficial. Do not induce vomiting. Call for medical advice.

4.2 Most important symptoms and effects, both acute and delayed

No further information available

4.3 Indication of immediate medical attention and special treatment needed

Treatment: Treat symptomatically

5. Fire Fighting Measures:

5.1 Extinguishing Media

Suitable Extinguishing Media : Foam, Dry Powder, Co2, fine water spray suitable.

Unsuitable Extinguishing Media : None

5.2 Special hazards arising from the substance or mixture

Not classed as flammable.

5.3 Advice for fire fighters

Wear self contained breathing apparatus and protective clothing. Cool closed containers exposed to the fire with water spray. Prevent water run-off from discharging into drains.

6. Accidental Release Measures.

6.1 Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away. Use protective clothing, chemical eye goggles and PVC or rubber gloves. Avoid contact with skin and eyes.

6.2 Environmental precautions

Inform authorities in case of contamination of water or sewage system. Do not allow product to soak into drains or water courses.

6.3 Methods and materials for containment and cleaning up

Soak liquid in absorbent material and collect solids in a container. Wash down floor area as spillages can be slippery. Dispose only in accordance with Local Authority regulations, via authorised waste disposal agent. Use only in well ventilated areas.

6.4 Reference to other sections

For personal protection refer to section 8

7. Handling and Storage.

7.1 Precautions for safe handling

Avoid contact with skin and eyes. Observe good standards of industrial hygiene. Keep in tightly closed containers. Take note of emission threshold.

7.2 Conditions for safe storage, including any incompatibilities

Keep containers tightly closed. Store between 10-35°C. Protect from frost. Do not store in extremes of temperature or near foodstuffs.

7.3 Specific end uses

To be used as a neat metal working compound.

8. Exposure Controls/Personal Protection.

8.1 Control parameters

Exposure limit values: None listed

8.2 Exposure controls

Respiratory Protection: Unlikely to be necessary where adequate ventilation is provided.

Eyes: Chemical eye goggles should be worn.
Hand: PVC or rubber gloves are recommended.
Skin: Use protective clothing. Remove contaminated clothing and wash with soap and water.

8.2.3 Environmental exposure controls

Dispose only in accordance with Local Authority regulations, via authorised waste disposal agent.

9. Physical and Chemical Properties.

9.1 Information on basic physical and chemical properties

Appearance:	Light Brown Paste
Odour:	Characteristic
Odour Threshold:	Not determined
pH 5% in water:	Not determined
Freezing Point:	35°C approx
Initial Boiling Point & Boiling Range:	Not determined
Flash Point:	Not determined
Flammability:	Non flammable
Evaporation rate:	Not determined
Upper/Lower Flammability Limits:	Not determined
Vapour Pressure:	Not determined
Vapour Density:	(Water=100) >1
Relative Density:	0.95 typical @ 20°C
Solubility:	Insoluble in water
Partition Coefficient (Oct/Water):	Not determined
Auto Ignition Temperature:	>100°C
Decomposition Temperature:	>100°C
Viscosity:	Not determined
Explosive Properties:	Not determined
Oxidising Properties:	Not applicable

9.2 Other Information

No other information available.

10. Stability and Reactivity.

10.1 Reactivity

No information available

10.2 Chemical Stability

No decomposition if stored and applied as directed.

10.3 Possibility of hazardous reactions

No information available.

10.4 Conditions to Avoid:

Avoid naked flames, hot surfaces and other high temperature sources.

10.5 Incompatible materials

Strong oxidising agents.

10.6 Hazardous decomposition products

Product is stable under normal conditions.

11. Toxicological Information.

11.1 Information on toxicological effects

Eyes: Product is not classified as an eye irritant. Contact with the product is likely to cause temporary irritation and stinging.

Skin: Product is not classified as a skin irritant. Brief or occasional contact is unlikely to cause any significant reaction. Prolonged or repeated contact with the product may lead to de-fatting of the skin and/or slight irritation.

- Inhalation:** Unlikely to present any significant hazard at ambient temperature. Excessive exposure to mists caused by atomising systems or fumes due to high temperatures may cause irritation to eyes and respiratory tract.
- Ingestion:** Ingestion of this product is not regarded as a significant health hazard, likely to arise in normal use. Swallowing of significant amounts may cause nausea, vomiting and diarrhoea.

12. Ecological Information.

12.1 Toxicity

There is no data available on the product itself.

12.2 Persistence and Degradability:

12.3 Bio-accumulative potential

They are not expected to bio-accumulate.

12.4 Mobility in soil

The product should not be allowed to enter drains or watercourses or be deposited where it can affect ground or surface waters. Avoid transfer into the environment.

12.5 Results of PBT and vPvB assessment

No information

12.6 Other adverse effects

Not known.

13. Disposal Recommendations.

13.1 Waste treatment methods

Product should be disposed of via an authorised waste disposal contractor in accordance with all local and national regulations. Dispose of empty containers in accordance with local and national regulations. Advice can be obtained from the Waste Regulation Authority whether special waste regulations apply to this product.

14. Transport Information.

Product is not classified as hazardous for transport.

15. Regulatory Information.

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Safety data sheet according to Regulation (EC) No. 453/2010.

This mixture has been classified and labelled in accordance with 1999/45/EC. Classification in accordance with EC 1272/2008 is derived from Annex VII in accordance with Article 61 paragraph 5.

1907/2006/EC - Registration, Evaluation, Authorisation and Restriction of Chemicals and amendments.

98/24/EC - Protection of workers from the risk related to chemical agents at work. Refer to Directive for details of requirements.

1272/2008 - Classification, labelling and packaging of substances and mixtures and amendments.

Refer to the relevant EU/national regulation for details of any actions or restrictions required by the above Regulation(s)/Directive(s).

The regulatory information provided may not be comprehensive. Other regulations may apply to this product.

15.2 Chemical safety assessment

No information at the present time.

16. Other Information.

Classification according to EU Directive 1999/45/EC

Hazard Symbol/Category of danger Risk Phrases

None

None

Labelling according to EU Directive 1999/45/EC

Safety Phrases S2: Keep out of reach of children.
 S24/25: Avoid contact with skin and eyes

Full text of R-phrases referred to under sections 2 & 3

Full text of H-Statements referred to under sections 2 & 3

Training Advice

Users should be trained in good industrial hygiene practise.

Department issuing data specification sheet: Health and Safety Department

Contact

Brendan Kennedy Tel 0044 800 772 0996, E-Mail: brendan@ttproducts.com

This data sheet does not constitute an assessment of the workplace risks as required under the provisions of the Health & Safety at Work act and the Control of Substances Hazardous to Health (COSHH).

Do not mix with other chemicals.

Further Information

Do not add other materials to the product or dilute emulsions unless recommended. Emulsions should be maintained at the recommended concentration in order to minimise health hazards. In particular, water can evaporate leading to an increase in concentration which may in turn lead to an increased likelihood of skin de-fatting and irritation. A refractometer can be used to give a convenient check on emulsion strength. During machining, coolant can become contaminated with tramp oil, metal debris and other contaminants which can solubilise in the emulsion, such as chromium, nickel cobalt. Metal particles can abrade the skin, increasing the potential for irritation to occur, whilst oil and metal contamination can increase the possibility of allergic skin reactions. This product may contain mineral oil with a published TLV/OES of 5mg/m³ as oil mist. It is advisable to control this level below 2-3mg/m³ to minimise discomfort and nuisance complaints.

The information supplied above is based upon the present state of our knowledge of the product at the time of publication. It is given in good faith and no warranty is implied with respect to the specification or quality of the product. The user must satisfy themselves that the product is entirely suitable for his purpose.
